SUMMARY

A self-motivated and enthusiastic fresh graduate who wants to enhance my practical expertise in the Technology sector. Can work well both independently and in a team.

WORK EXPERIENCE

ST Engineering

Engineer

JUN 2022 - PRESENT

- Designed and coded a N-tier architecture application in ReactJS, Svelte (frontend), NodeJS, Golang (backend), MySQL (database) together with my scrum-based team in an Agile environment utilizing a work breakdown structure (product backlog) and test driven development (development testing) methodology
- Analyzed impact and effectiveness of UX/UI application changes through identifying features of client behavior and streamlined application UI design to improve user experience across all channels enhancing business workflow while minimizing movement
- Collaborated in agile project delivering end to end continuous integration/continuous delivery (CI/CD) pipeline by integration of tools like GitLab using branching strategy (dev and rel branch)
- Implemented RESTFUL API and documented it with the method signature and the agreed contract of success and error messages and/or status
- Created container-based application through Docker file while taking security and size into consideration, containerized RESTFUL API as docker image, and learnt how to manage the container image and deployed it in an air gap environment
- Participated in daily stand ups and sprint retrospective with my scrum-based team

AIA Singapore

Executive

AUG 2018 - AUG 2019

- Coordinated with Citibank team on campaigns
- Produced banker's quarterly campaign sales through Microsoft Excel
- Organized data in Microsoft PowerPoint slides
- Prepared and analyzed daily sales reports

OCBC Bank

Intern (Global Enterprise Data Analysis)

JAN 2017 - JUL 2017

- Programmed MySQL codes to extract data with my mentor's supervision
- Charted data into graphs and charts on Microsoft PowerPoint slides
- Designed a simulated dashboard of automated charts through pivot tables on Microsoft Excel
- Reorganized department's file directories

Starbucks Coffee

Barista

MAY 2020 - JUN 2022

JUN 2015 - JAN 2018

- Delivered tasks assigned by supervisor
- Consulted customer enquiries and strengthened relations with customers

EDUCATION

University of Wollongong, Singapore Institute of Management

Bachelor of Computer Science with Distinction (Cyber Security)

Singapore

OCT 2019 - JUN 2022

Republic Polytechnic

Diploma in Business Applications

Singapore

APR 2015 – MAY 2018

ACHIEVEMENTS

Ethical Hacking – Exposed, Republic Polytechnic

Certificate of Attendance

JUN 2019

Badminton POL-ITE games, Republic Polytechnic

Bronze

JUL 2015

SKILLS AND INTERESTS

Technical

- ReactJS • NodeJS • ExpressJS • Svelte • Golang • Docker • MySQL • GitLab
- Python • Java • HTML • CSS • Bootstrap • C# ASP.NET • PHP • Agile • Microsoft Office

Language

English, Chinese

Interests

Badminton, Playing games with friends, Listening to music
